Constitution of Institute Industry Cell

An Institute Industry Cell (IIC) is hereby constituted of the following members, to bridge the gap between academia and industry. The main objectives of the IIC include, but not limited to:

1. Industry Collaboration – Facilitate partnerships, MoUs, and collaborative projects with companies.
2. Skill Development – Organize training, workshops, internships, and certification programs for students to gain industry-ready skills.
3. Research & Consultancy – Encourage joint research, consultancy services, and problem-solving for industry challenges.
4. Placements & Internships – Act as a channel for student internships, live projects, and job opportunities.
5. Knowledge Exchange – Invite industry experts for guest lectures, seminars, and mentoring.
6. Entrepreneurship Support – In some institutes, IIC also supports startups, incubation, and innovation through industry mentorship.
